IN-FACILITY PROGRAMS & SERVICES INVENTORY

LAST UPDATED: 9.3.2021

The purpose of this Inventory is to provide facilities and inmates with information on programs and services that are offered within each facility. This will allow case managers and inmates to plan educational, treatment and self-development needs to ensure inmates have opportunities to achieve healthy, happy lives and the skills to successfully transition back into their communities. Programs and services provided within the Department's facilities are facilitated by staff, VolinCor, community partner agencies and via contracts. For information on programs within the community (not within facilities), please refer to the Department's *Community Resource Guide*. The latest version of the Department's *Community Resource Guide* can be located on our website's Publications section at: <https://dps.hawaii.gov/wp-content/uploads/2021/04/Community-Resource-Guide.pdf>.

<p>Sex Offender Treatment Program (SOTP)</p>	<p>Hawaii Department of Public Safety – SOTP</p> <p>There are five treatment modules in SOTP:</p> <ol style="list-style-type: none"> 1. Human Sexuality 2. Anger/Stress Management 3. Social Skills 4. Victim Empathy 5. Relapse Prevention <p>After the Reception, Assessment, and Diagnostic Unit (RAD) identifies the programmatic needs of each inmate, the SOTP office receives notice and sends an application to the inmate. When the inmate’s application is approved, the inmate is placed on a waitlist. Individual treatment needs are determined by their RAD recommendations and modified throughout treatment. Victim Empathy and Relapse Prevention are required treatment modules.</p> <p>Inmates usually begin SOTP two to three years prior to their tentative parole date, or the date their minimum term of imprisonment expires. The program takes an average of 24 months to finish depending on the inmate and not counting any possible disruptions such as waiting for a particular treatment module to become available or inmate misconducts. Psychosexual risk assessments are done towards the end of their program for further treatment and sex offender management and supervision recommendations. Inmates who complete the program are recommended to continue treatment in aftercare sessions if they enter the work furlough program or are released on parole. Inmates who complete the core program but during incarceration, work furlough, or parole continue to demonstrate high risk sexual behavior can be recommended to return to the core treatment program to review their deviant cycle and address other pertinent areas of high risk. Yearly STABLE risk assessments are done while in the community.</p>	<p>Contracted</p>	<p>HALE NANI, HCCC, HCF, KCCC, KCF, LWFC, MCCC, OCCC M20, WCCC</p>
